

Boat Designer Tool

Mockup

Boat Designer Tool Description

- The boat lettering design tool to be created and then integrated into NOPCOMMERCE. The design tool should be responsive or mobile ready. Once user created their boat name, hailing port or boat registration number; it can be added to the NOPCOMMERCE shopping cart. The small sample proof is also in the cart.
- User can add the design decal to the **wish list**. This will give the users to go back to order the custom design or pick up where they left off on the design. This Wish List function already existed on NOPCOMMERCE.
- User can send the design decal by using **email to a friend**. This Email To A Friend function already existed on NOPCOMMERCE.

Shopping Cart Includes

1. Proof decal image
2. Edit Proof image option
3. Attributes from the User creation such as text, width & height, color, bold, italic, shadow, etc.
4. Price

Order email confirmation includes the order detail like the shopping cart. The exact same thing would also be emailed to the store administrator.

Boat Designer Tool Description

1. Bootstrap to be mobile friendly
2. Canvas needs to be adjusted to the text and or vector images as Users creating them
3. There will be 3 names using the same designer tool such as **Boat Registration Number, Boat Name (Hailing Port) and Boat Lettering**. This is for SEO purposes.
4. For the Boat Registration Number will have a standard default number ex. KY 1234 CD
5. Pricing formula will be provided
6. Attributes need to be added to the product so Users may or may not use them

The product decals will be 1-2 pounds

ADD TO CART

Adding to Shopping Cart

Once the user created the boat name design, they can add it to the shopping cart. From there it will list all the attributes of the design. They will have the option of Editing the graphic if necessary.

The Attributes Example:

Graphic Size W X H

Text Decal Size W X H

Bold

Font Type

Arch Up

Quantity		Title
Remove	<input type="text" value="1"/>	Boat Name
Edit	Update Qty	Boat Name - 9.8"w x 3"h
		Graphic Size - 7.8"w x 4.2"h
		Leave Comment
		i Show Details
Remove	<input type="text" value="1"/>	Boat Name
Edit	Update Qty	Boat Name - 22.3"w x 3"h
		Leave Comment
		i Show Details

Adding to Wish List

Once the user created the boat name design, they can add it to the Wish List. From there it will list all the attributes of the design. They will have the option of Editing the graphic if necessary.

The Attributes Example:

Graphic Size W X H

Text Decal Size W X H

Bold

Font Type

Arch Up

Quantity		Title
Remove	<input type="text" value="1"/>	Boat Name
Edit	Update Qty	Boat Name - 9.8"w x 3"h
		Graphic Size - 7.8"w x 4.2"h
		Leave Comment
		i Show Details
Remove	<input type="text" value="1"/>	Boat Name
Edit	Update Qty	Boat Name - 22.3"w x 3"h
		Leave Comment
		i Show Details

3 Designers Tool

- **Boat Registration Number**

By default the tool will display in the textbox: **KY 1234 CD**

- **Boat Name**

By default the tool will display in the textbox: **My Boat Name**

- **Hailing Port (City, State)**

By default the tool will display in the textbox: **City, State**

There should be 3 designers tools using the same tool. The difference is shown above. I believed the tools should be a product to obtain Product ID in NOPCOMMERCE. Attributes to be added if necessary by the users.
